

## **What's New at Inspired Energy**

### **High output capable 7-pin Standard Battery Solution**

If you need a high-power discharge product, we have you covered. Our new “S” series standard battery with integrated 7-pin connector supports up to 20A discharge with high-capacity for long runtime needs.

### **Need to discuss your application?**

**Come see us at the Sensors Converge June 2023 in Santa Clara CA.**

We will be supporting our products and answering your technical questions to meet your application needs.

### **Expanding our Capabilities**

Founded in 2002, our steady increase in our footprint in North Central Florida has decreased our reliance on imported items. Current expansion added 10k sq/ft of storage and manufacturing space will tripling our plastic injection molding capability for self-supported plastic processing.

### **IEC 62133-2 Approved products**

*Medical*  
*Military*  
*Robotics*  
*Portable Instruments*  
*OEM and aftermarket support*
